

CLAIMS

**WE**claim:

5        1. A wound dressing comprising:  
a support strip of material having a body-attaching side; and  
also having adhesive being disposed about and upon said body  
attaching side;

10       a pad member being securely attached upon said body-  
attaching side of said support strip of material;  
at least one wound-healing agent being disposed upon said  
pad member; and

15       protective strips of material being removably disposed over  
said body-attaching side including said pad member and said at  
least one wound-healing agent.

20       2. A wound dressing as described in claim 1, wherein said  
support strip of material is made of flexible plastic and has a  
plurality of aerated openings being spaced about and being disposed  
through said support strip of material.

25       3. A wound dressing as described in claim 1, wherein said  
pad member is generally a gauze and is centrally attached upon said  
body-attaching side of said support strip of material.

4. A wound dressing as described in claim 3, wherein said at  
least one wound-healing agent includes a syrupy substance known  
as honey.

add 7  
5. A wound dressing as described in claim 4, wherein said at least one wound-healing agent also includes a wound-sealing wax being disposed upon said gauze along with said honey.

5 6. A wound dressing as described in claim 5, wherein said protective strips of material are made of flexible fabric and have end portions which overlap one another when detachably attached to said support strip of material.
